ENGLISH

Read the following passage carefully and then answer the questions form 01 to 05:

During the nineteenth century, the mechanization of farming and the fencing of range land opened the agricultural heart of North America to intensive development. As the natural geographic center of this region, Chicago became the crossroads of a vast transportation network. The great waterway systems of the Mississippi valley and the Great Lakes were linked in Chicago in 1847, when the Illinois-Michinga Canal was opened to traffic. Within the next year, rail lines began to operate trains to and from the city. The rise of agricultural activity demanded facilities for the storage and milling of grain, the slaughtering of cattle, and the processing and shipment of meat. The manufacture of farm machinery branched out into the basic metal-fabricating and woodworking industries. This soon attracted banks and other financial institutions. Four years after the end of the Civil War, Chicago was already established as the focal point of the largest system of inland waterways in the world and the hub of a rail network that extended to the Atlantic, Gulf, and Pacific coasts. অতীব গুরুত্বপূর্ণ

তোমরা সকলেই জানো যে, বিইউপিতে লিখিত পরীক্ষার পর **ভাইবা** পরীক্ষাও নেয়া হয়, এবং এই ভাইবা পরীক্ষা অত্যন্ত গুরুত্বপূর্ণ বিইউপিতে চান্স পাওয়ার জন্য। কেননা, প্রতিটি ফ্যাকাল্টিতে যতটি আসন রয়েছে তার বিপরীতে ৪ গুন পরীক্ষার্থীকে ভাইবা পরীক্ষার জন্য ডাকা হয়। অর্থাৎ যদি ১০০ টি আসন থাকে তাহলে ৪০০ জনকে ভাইবার জন্য ডাকা হবে এবং ভাইবা পরীক্ষা শেষে চূড়ান্ত ভাবে ১০০ জনকে নির্বাচিত করে বাকী ৩০০ জনকে বাদ দেয়া হয়। তাহলে বুঝতেই পারতেছো যে লিখিত পরীক্ষায় চান্স মানেই বিইউপিতে চান্স না, **লিখিত + ভাইবা** ২ টাতে চান্স পেলেই বিইউপিতে ভর্তির সুযোগ পাবে।

তাই তোমাদের ভাইবার প্রস্তুতিকে সর্বোচ্চ গুরুত্ব দেয়ার জন্য আমাদের রয়েছে ২ দিন ব্যাপি "মক ভাইবা" এবং "ভাইবা ট্রেনিং" সেশন, যা লিখিত পরীক্ষার ফলাফল দেয়ার পর অনুষ্ঠিত হবে। উক্ত মক ভাইবা এবং ট্রেনিং সেশনে অংশগ্রহণ করলে আশা করি ভাইবার জন্য তোমরা সকলেই আশানুরূপ প্রস্তুতি নিতে পারবে।

Read the following passage carefully and then answer the questions form 01 to 05:

During the nineteenth century, the mechanization of farming and the fencing of range land opened the agricultural heart of North America to intensive development. As the natural geographic center of this region, Chicago became the crossroads of a vast transportation network. The great waterway systems of the Mississippi valley and the Great Lakes were linked in Chicago in 1847, when the Illinois-Michinga Canal was opened to traffic. Within the next year, rail lines began to operate trains to and from the city. The rise of agricultural activity demanded facilities for the storage and milling of grain, the slaughtering of cattle, and the processing and shipment of meat. The manufacture of farm machinery branched out into the basic metal-fabricating and woodworking industries. This soon attracted banks and other financial institutions. Four years after the end of the Civil War, Chicago was already established as the focal point of the largest system of inland waterways in the world and the hub of a rail network that extended to the Atlantic, Gulf, and Pacific coasts.
